## Arist Dethleffs invents caravanning in 1931.

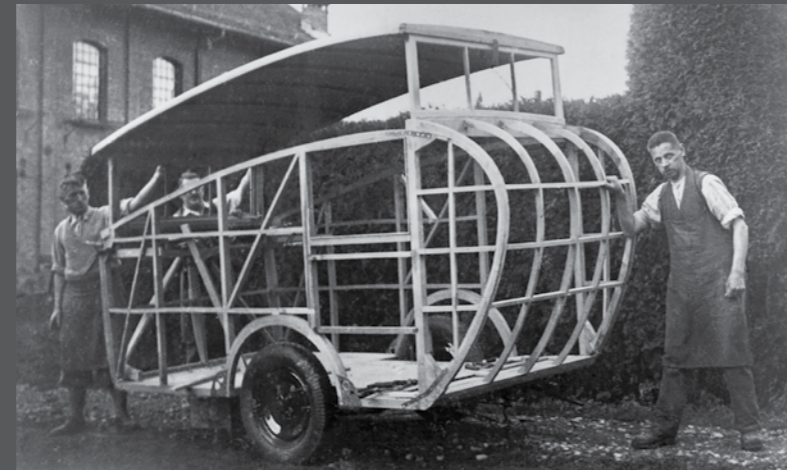

Determined to make sure his family could always join him on his business trips, Arist Dethleffs invented the first “camper car” – and at the same time, a completely new type of holiday. In so doing, the horsewhip and ski pole manufacturer pioneered a success story that continues to this day.

Not without my family!

## An idea enters mass production.

Wherever the Dethleffs family appears with their caravan, curious onlookers surround it. The prototype meets with great interest and thus attracts more and more followers. The idea becomes a company – the company becomes an entire leisure and holiday industry.

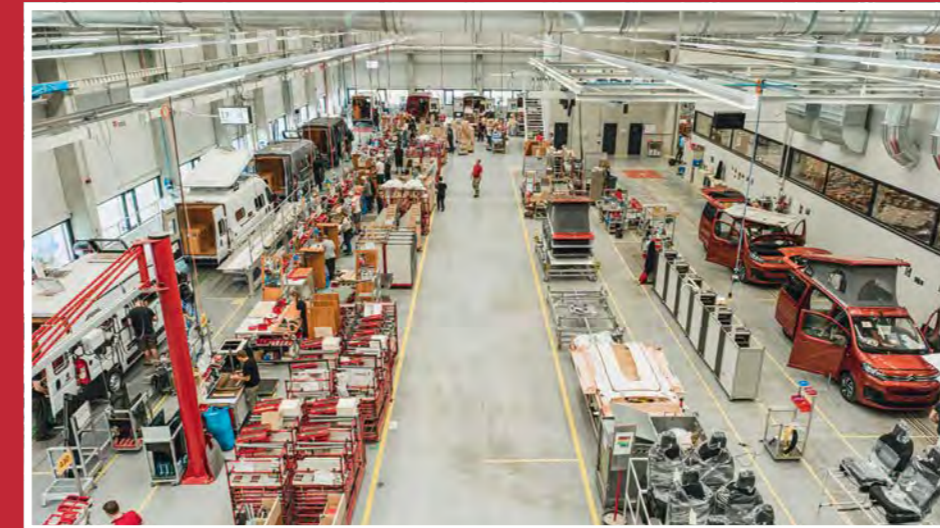

ARIST DETHLEFFS TRANSFORMED AN IDEA INTO A MOVEMENT. HIS TRAILBLAZING FRAME OF MIND LIVES ON AT DETHLEFFS, INSPIRING MILLIONS IN THE DECADES THAT FOLLOWED.
